

# SAI NITISH REDDY KAPA

## COMMUNICATIONS & DATA PROFESSIONAL

kapasainitishreddy@gmail.com | linkedin.com/in/kapasainitishreddy | github.com/kapasainitishreddy

### PROFESSIONAL SUMMARY

Communications and data professional with 3+ years of experience translating complex technical, research, and operational information into clear reports, presentations, digital content, dashboards, and stakeholder updates. Combines editorial judgment, publication coordination, analytics, visual storytelling, and responsible AI tools to make technical and policy-oriented ideas accurate, accessible, and actionable.

### CORE SKILLS

Communications: technical writing, editing/proofreading, research synthesis, briefing materials, digital publishing, content QA, stakeholder updates, presentation development  
Data & Research: Python, SQL, Excel, Power BI, KPI reporting, data validation, dashboards, market research, source verification, evidence synthesis  
Operations & AI: workflow coordination, review cycles, documentation, version control, Git/GitHub, responsible AI use, LLM output evaluation, structured QA

### PROFESSIONAL EXPERIENCE

**Business Data Analyst | Augmentare Inc.** Aug 2024 - Present

- Translate technical and operational findings into concise reports, executive presentations, dashboards, one-pagers, and stakeholder updates for non-technical audiences.
- Coordinate concurrent deliverables across business and technical teams, maintaining timelines, source materials, review cycles, approvals, and clear handoffs.
- Create polished visual and analytical materials using PowerPoint, Excel, Power BI, Python, and SQL while keeping definitions and assumptions consistent.
- Build recurring performance reports and validation workflows for large datasets; process improvements increased reporting efficiency by 28%.
- Use AI-enabled tools for research, summarization, drafting, and quality review with human verification and careful handling of sensitive information.

**Data Analyst | VN Technologies** Jun 2020 - Jan 2023

- Produced client-ready reports, research summaries, presentations, process documentation, and internal communications from technical and operational analysis.
- Partnered with cross-functional stakeholders to gather content, resolve inconsistencies, manage revisions, and deliver accurate materials across multiple deadlines.
- Built recurring dashboards and surfaced trends that reduced analysis turnaround by 30%.
- Standardized templates, organized source files, proofread deliverables, and maintained version control to improve handoffs.
- Prepared briefing notes, milestone updates, meeting materials, and post-project summaries for distributed teams.

**AI Model Trainer | Outlier AI | Freelance** 2024 - Present

- Reviewed 1,800+ AI outputs for factual accuracy, reasoning quality, clarity, safety, instruction following, and audience fit.
- Documented 30+ recurring quality issues and converted findings into structured feedback and reusable review guidance.
- Edited model responses into concise, evidence-aware communication while preserving technical nuance and escalating ambiguous cases.

**Lead Analyst | Legitified | Freelance** 2024

- Converted market and research data into structured recommendations, stakeholder-ready narratives, presentations, and decision-support materials.
- Synthesized competitor, audience, and opportunity research while tracking source quality, uncertainty, and evidence behind conclusions.

### SELECTED WORK

**Syrava Web, Content & Growth Operations | Independent Product Portfolio**

- Built and iterated public-facing product sites and launch content, coordinating messaging, policy/help content, metadata, SEO/GEO structure, and release QA.
- Balanced technical changes, website updates, positioning, launch readiness, and post-release verification across a multi-product portfolio.

**AI Governance Communications Hub | Independent Project**

- Designed a human-reviewed workflow for translating AI safety and governance research into web articles, newsletters, social posts, briefing cards, and analytics reports.
- Built verification checkpoints to separate sourced evidence from inference and keep AI-assisted drafts accurate, traceable, and audience-appropriate.

### EDUCATION & CERTIFICATIONS

**M.S., Engineering Sciences - Data Science | University at Buffalo, SUNY | GPA 3.63/4.0**

B.Tech, Electronics and Communication Engineering | IIIT Tiruchirappalli | GPA 8.5/10

Google IT Support Professional Certificate | PCB Designer Certificate
