

SAI NITISH REDDY KAPA

OPERATIONS COORDINATOR

kapasainitishreddy@gmail.com | 716-253-5068

PROFESSIONAL SUMMARY

Operations, research, and analytics professional with 4 years of experience coordinating workflows, triaging priorities, preparing professional communications, and translating research into actionable briefings. Highly organized, detail-oriented, and effective at keeping distributed teams, projects, logistics, and deadlines on track.

TECHNICAL SKILLS

Operations Coordination, Project Workflows, Asana, Airtable, Priority Triage, Project Tracking, Meeting Coordination, Event Logistics, Travel Coordination, Briefing Notes, Memos, Reports, Professional Communications, Research Synthesis, Biosecurity Concepts, Pandemic Preparedness, Risk Tracking, Stakeholder Updates, Documentation, Excel, Power BI

PROFESSIONAL EXPERIENCE

Business Data Analyst | Augmentare Inc.

Jan 2024 – Present (Concurrent)

- Coordinated recurring analytical and operational workflows using structured trackers, priority queues, deadlines, owners, dependencies, and documented follow-ups.
- Prepared dashboards, reports, briefing-ready summaries, and stakeholder updates using SQL, Excel, Python, and Power BI.
- Triaged requests, investigated exceptions, and communicated risks and next actions so cross-functional work stayed accurate and on schedule.
- Built repeatable templates, validation checklists, and operating documentation that reduced ambiguity and prevented tasks from falling through gaps.

GTM Analyst | WFO

Oct 2024 – Mar 2025

- Increased execution speed by 32% by organizing lead research, outreach tracking, follow-ups, founder priorities, and customer-success handoffs.
- Drafted professional messaging, campaign briefs, meeting notes, and structured updates for partners, creators, prospective users, and internal stakeholders.
- Maintained project status, action items, research notes, and decision context across fast-moving initiatives and distributed contributors.

Student Employee | Operations | Campus Dining, University at Buffalo

Aug 2023 – Jun 2024

- Supported high-volume daily operations, coordinated with team members, maintained accurate records, and escalated safety, quality, and customer issues promptly.
- Balanced multiple priorities and schedule changes while helping prepare work areas, materials, and service logistics for reliable execution.

Market Research Analyst | Legitified

Jan 2024 – Oct 2024

- Researched 500K+ records across organizations, industries, decision-makers, and market topics; synthesized findings into concise, actionable briefing notes.
- Created structured company profiles, competitive analyses, research databases, and founder-ready memos with clear sources and recommendations.
- Organized evidence, tracked open questions, and converted complex information into prioritized insights for strategy and operational planning.

Data Analyst | VN Technologies

Jun 2020 – Jan 2023

- Managed recurring reports, KPI trackers, data-quality checks, and stakeholder requests using SQL, Excel, Python, and Power BI.
- Supported requirements, UAT, documentation, issue resolution, and status communication across business and technical teams.

SELECTED PROJECTS

Biosecurity Program Operations Hub

- Designed an Asana/Airtable-style system for project intake, priority triage, owners, dependencies, meeting logistics, travel tasks, risks, and rolling deadlines.
- Created briefing templates, meeting packets, event checklists, and executive status views so senior staff could focus on strategy.

Pandemic Preparedness Research Briefing

- Synthesized public-health, biosecurity, and pandemic-preparedness sources into concise analyses covering key findings, uncertainties, operational implications, and recommended actions.
- Maintained source notes, research questions, revision history, and review-ready memos for accurate, transparent organizational decision support.

EDUCATION & CERTIFICATION

M.S., Engineering Sciences – Data Science, University at Buffalo, SUNY | B.Tech., Electronics and Communication Engineering, IIT Trichy, GPA: 8.5/10

Google IT Support Professional Certificate | Forward Deployed Engineer – Educative
